

Lord Mayor
Mr Campbell Newman

Dear Mr Newman,

I'm writing to you in regards of the press release concerning the lack of motorized off-road riding areas in south east Queensland.

Presently contracted to the Fort Lytton motocross club as the facility manager, I have 20 years management experience with in the industry.

I would like to be considered for a position as a consultant /representative from the Fort Lytton motocross club with in your forum, as I believe my input would be beneficial for your team to help make an educated decision for this difficult topic.

Our club, Fort Lytton Motocross was the only motocross club operating legally in Brisbane, has been closed due to the Port of Brisbane expansion. However a new facility in Brisbane is looking promising with support from the state government, Sports and Rec Department, and of course the Brisbane city Council.

As our club is liaising with the state government departments to relocate the club with in Brisbane, I envision your forum would be a suitable opportunity for a open discussion with your team to help answer any questions we both may have.

I'm sure together we will be able to meet the demands and expectation the community has towards off-road motorsports in Brisbane.

Regards,
Kenneth Herson
Facility Manager
Fort Lytton Motocross club
